Stakeholder	Out For Undergrad
Area	USA
Time Period	2022
Topics	Data, Visualization
Project Administrator	Jon F. Kapp: jkapp@communitysystemsfoundation.org

Budget

USD	.003 million
-----	--------------

Community Systems Foundation (CSF) has configured and deployed DFA Monitoring and developed a dashboard for Out For Undergrad (O4U), an organization focused high-achieving LGBTQ+ undergraduates reach their full potential. This dashboard is now allowing them to more closely monitor the status of their Strategic Plan.

As an output of DFA Monitoring, Community Systems Foundation (CSF) has created a data visualization dashboard that provides graphs and other tools to observe the progress made by the organization in reaching their goals.

DFA Monitoring allows O4U board members to better understand the status of their goals and to more easily see the Interim Goals that need more attention. A key benefit of DFA Monitoring is that it can lead to accountable and transparent action that supports achievement of organizational objectives This allows O4U to better prioritize to support LGBTQ+ undergraduates around the world.

On the dashboard, the interactive map is allowing users to understand the demographic breakdown O4U's participants. This allows them to diversify the geographic participation of students in their conferences. The other visualizations on the dashboard highlight the progress made to date, their student demographics and their total student count.
